

Meeting started at 10:20 o'clock

Members attended meeting  
CDC Meeting 10.10.2017

Agenda:

1. Welcoming Michael  
→ He should know the CDC Members
2. Present the new proposal
3. Primary Education
4. Chiganga Primary School
5. Kiri Primary School

1. Every Member introduced him- or herself.  
Mr. Mbuli said: "If there are any problems for Michael, he can come and communicate his problems. The CDC members will be able to help."

2. ~~After~~ This time we need 56 bags of fertilizer. That is all for roads, pre-school-teacher and primary school teachers. It's enough for this year.

a/b) seed maize:

→ 20 packages of ten kilos

It is all needed at the end of <sup>end</sup> month of November. People will start paying back by the <sup>end</sup> of October. Duration for fertilizer is 4 months and for maize 2 months. People are saying that they will pay 6000 K per month.

The teachers from the primary school; They didn't  
finish to pay back the amount for the police.  
Only Gaverwell did.

The CDC says: "They have given one more month  
for paying back. If they won't pay, they won't get their  
money."

3. The CDC is waiting for decisions from the management  
side, because all the comments were written down during  
the interviews in each and every form for the applicant.

4. The CDC recommend that Gaverwell is a good teacher.  
Michael has observed his lessons. His opinion is the same.  
Community people are contributing food for Gaverwell.

The kitchen at the primary is not finished. The house of  
Gaverwell and Bondawell is next to be maintained.  
But the community is not doing it. We don't know, but  
we can handle the community people because they  
won't be able to attend the CDC meeting.

5.  
CDC went to visit as a team with the two volunteers  
Tina and Michael.

- The CDC asked how many learners are at that school?

→ 535 learners

- How many teachers teach at that school?

→ 7 teachers

- How many teacher hours do they need?

→ They have one teacher hour at the moment

→ They said they need 5 hours but in our discussion

to  
agreed that for the moment 1 one house is enough.  
\* They have the local materials, so can build their  
houses by themselves.  
- How many classrooms do they like?  
→ They have four and they like four further classroom  
or they want to have eight classrooms.  
- Mthuli asked back ~~whether~~ whether it is reasonable?  
→ He said: "In my opinion, yes, because 4 classrooms  
for 535 learners are not enough. There's a need of more  
roofs, meals, ..."

agreement  
theory  
t.  
Njini has asked for a membership. That was their proposal.  
GRACE agreed that Njini. The CDX is asking GRACE  
whether they agree or not?

of  
The meeting started at 12:20 and ended at 14:10.

any  
Members who were attending:

Chairman: Daniel Mthuli  
Secretary: Esnat Vojazulu  
Treasurer: \_\_\_\_\_  
Members: Mzozodo Ngwira  
Jameson Magoda

Minutes written by Michael Bekame on 10 of October
