Request for a progress report

Dear Daniel
Dear CDC members

Hope you and your entire families are doing well. At first let me thank you very much for working out the annual statement of accounts. Our treasurer is currently checking the files having been transmitted by Jona.

At March 6 the annual assembly of GRACE will take place. At this point our meanwhile almost 100 supporting members expect to get insights about the status of our intercultural collaboration. To provide everybody with a frank summary on our commitment and to motivate them as well I should have a fair knowledge about the current situation and your plans/wishes at Chipunga.

For that reason it would be extremely helpful if you could provide me with an overview on the ongoing and anticipated projects. Not too much and not too less – including a short self-evaluation on the opportunities and even weaknesses of each project. Of course reporting might become easier if one of the „weltwaerts“ persons could take notes electronically. Great would be if they could use cameras and send me some snap-shots of you, CDC, projects, teachers, other things of interest as well. Thanks in advance!

Because of the high investment to build teacher houses and to get the EMMANUEL students to Chipunga the situation at Chipunga Primary School is of high interest to us. Does CDC have proposals to improve the level of better educated kids? Share and discuss your ideas with us please. Let us know how you would invest money, efforts, resources etc. Do a workshop and provide us with your view. We need your expertise to start initiatives tackling this problem. E.g. you could think about arranging a parent-teacher meeting, an information day etc., etc. - bring up any ideas which might work.

Also I would be interested too know about the income generating project with chicken, some news on the bicycle and fertilizer distribution, health, other arrangements, and so on and so forth.

With best regards from wintry Germany (snow and minus 15° C / see picture of my daughter Fiona),
Jens
